

FDA Pallet for Medium Loads -Red

PP48X40-6D

Red

Technical Data

Product	Bottom support	Top deck	Dimensions			Load Capacity ¹			Weight	Material	Entry	Safety rim	Nesting height
			Lenght	Width	Height	Static	Dynamic	Racking					
PP48X40-6D	4 runners (frame)	Open	48.0 in 1219 mm	40.0 in 1016 mm	6.1 in 155 mm	25 000 lbs 11 339 kg	5 000 lbs 2 268 kg	1 000 lbs 454 kg	35.0 lbs 16.0 kg	Virgin HDPE	4 Ways	- -	- -

Additional Information

Main Features²

Space Saver

Stackable when transporting cargo. Stackable and rackable when storing goods.

Long service life

Robust and durable. Reusable inside a closed circuit.

Exportation

Exempt from Nimp 15 standards. Minimizes the loss of space in ISO containers.

Hygienic

Made of virgin resin approved for food contact.

Norms

ISO Dimensions³: ISO 3

EPAL³ Dimensions: -

GMA³ Dimensions: Yes

NIMP 15: Exempt

FDA⁴: -

¹ Pallet specifications come from the manufacturers and are based on practical experience. They are valid for standardized and uniformly distributed loads. Capacities may be less depending on conditions of use. It is the user's responsibility to ensure that the pallet meets their specific requirements.

² Common uses are listed for example only. They are based on the characteristics of the pallet and the common use of similar pallets. Certain factors could prevent or allow certain applications depending on the conditions of use.

³ Different standardization bodies establish several criteria for pallets, including length, width, weight, load capacity, etc. The various standards mentioned above only refers to the length and width of the pallet and are used for comparison purposes only. The terms "ISO Pallets", "EURO Dimensions" "EURO Pallet" and "GMA Pallet" are commonly used in the pallet manufacturing industry to refer to length and width. This does not necessarily mean that they are certified by one or more of these organizations.

⁴ The Food and Drug Administration (FDA) does not certify pallets. It provides manufacturing guidelines to ensure pallets are made from materials approved for food contact. A pallet manufactured following these guidelines is considered FDA approved.
